

*Aquaria Water Pipeline Project
Planned Restoration Activities in Your Neighborhood*

October 17, 2008

Dear Resident/Property Owner:

RE: Project Area-wide Roadway Restoration Begins Week of October 27, 2008

Aquaria's contractor, P. Gioioso & Sons, has completed water pipeline installation and associated construction activities, including installing new sidewalks in Easton and West Bridgewater. During the past few weeks, the contractor has been restoring landscaping, curbing and other areas impacted by construction. Restoration of roadways that were impacted by the project will begin on Monday, October 27, 2008 and the contractor anticipates the work will take approximately three weeks to complete. Paving will begin at the southern end of the project area and continue north to the Brockton city limits line.

The contractor will attempt to maintain two lanes of travel, whenever feasible, during paving operations. If the contractor is not able to maintain two lanes of travel, a traffic pattern of one alternating lane of travel will be implemented. The contractor's work hours will be 7:00 AM to 3:00 PM. Police details will be present to direct traffic during the contractor's work hours. Should a detour be necessary, the contractor will coordinate this with the Police Department and post signs marking the detour route.

If you have a question or concern, please call the Project hotline at 888-987-6264 or email us at contactus@aquariawater.com.

We have greatly appreciated your patience and understanding as we implemented this complex construction project, which will enhance the drinking water supply for Southeastern Massachusetts. Thank you very much!

Sincerely,
AQUARIA WATER LLC

Alfredo Andrés
General Manager
